

Alcubierre Thinking Study Group

This group is named after Professor Miguel Alcubierre Moya, a Mexican theoretical physicist. Alcubierre is known for the proposed Alcubierre drive, a speculative warp drive by which a spacecraft could achieve faster-than-light travel.

Miguel Alcubierre

Mexican theoretical physicist

Meetings

Institution: Western International High School

Subject: Physics.

School year: 2020-2021

Instruction: Online

Teacher: Dr. Nada Saab

Time and Date: Every Thursday from 1:15-2:45 p.m. during office hours.

Aim: To practice critical thinking and problem solving in physics.

Materials: Study Group Problem Set ([link](#))

Video: How fast can we travel in space ([Link](#))
